Table of Contents

Part 1: The World of Prehistory

- **1-A: Unusual Creatures and Environment**
- **1-B: What about Human Beings in the Age of Prehistory?**
- **1-C: Origin of the Prehistoric Environment and Cause of its Disappearance**

Part 2: Has Earth Already Had an "End Time"? Cataclysm of the Great Flood

- **2-A: Is There Scientific Evidence of a Great Flood?**
- **2-B: Skepticism in Modern Science**
- **2-C: And What About Cultural Evidence?**
- **2-D: Re-Creation of the Earth**

Part 3: Transition from One Environment to Another

- **3-A: How the Flood Re-modeled Our Earth's Environment**
- **3-B: Pictorial of the New Features in Our Post-Flood Environment**
- **3-C: A Further Word about the Giants**
- **3-D: Was There an Ice Age?**
- **3-E: Early Migration Before the Rise of Civilization**

Part 4: How Well Does Evolution Theory Agree with Scientific Principles and Discoveries?

- **4-A: Introduction**
- **4-B: Complexity of the Natural World – Evidence of Supernatural Designer**
- **4-C: Laws of Science**
- **4-D: The Marvel of DNA (Deoxyribonucleic Acid) Structures**
- **4-E: Monkey-to-Man Evolution? Missing Evidence of Missing Links**

4-F: Micro Versus Macro Evolution
4-G: The Problem with Darwinism
4-H: In Summary, What Does Science Tell Us about Evolution Theory?

Part 5: How Old Is the Natural World?

5A: What About Radioactive Dating Methods and the Speed of Light?
5B: Age Estimates Based on Geological Evidence
5C: Estimates Based on Evidence from Outer Space
5D: Age Estimates Based on Population Data
5E: Historical-Cultural Evidence
5F: Age Estimates Based on Fossil Evidence: Human-Dinosaur Co-existence!

Part 6: Conclusion

6-A: What is Permanent?
6-B: What does it Mean to Have a Definite Starting Point for History?
6-C: Closing Remarks
